

But I don't live there.

The notion that we must all bank in the town in which we live is a throw-back to days gone by. Our branch offices are important, especially so to us, but so are other banking channels like on-line and mobile. Banking is changing. Are you?

We're fortunate to have nine branches with lots of really helpful people working in them. But truth be told, not every one of our customers who comes into those branches is from our branch towns. Many of them live in nearby communities with lots of other banks in them. Just not a Needham Bank branch.

So, if you don't live in Needham, Dedham, Dover, Medfield, Wellesley, Westwood, Natick, Millis, or Ashland we'll still welcome you with the same legendary private bank-like service and industry-leading products and services all of our customers expect from us.

And, of course, you can bank with us without ever coming in to one of our branches. You can open your account online at NeedhamBank.com or contact Julie White, Private Banker, at 781-474-5984 (JWhite@NeedhamBank.com) and we'll come to you. In these busy times, more and more individuals and businesses are enjoying having their Needham banker come to them.

By the way, do you even know who your banker is at your behemoth bank? With us, you'll know your banker who'll take exceptionally good care of you, your family, and your business. Even if you don't live around the corner.
