

## The Bank on Campus

You visit prospective colleges, taking note of what bank is on or near campus. But why?

### Is it ATM access?

That bank may have a machine there, but what about when you're off campus, traveling, or home? They charge a fee on top of the ATM fee, all for the privilege of accessing your money from another bank's ATM.

### But they have "Student Checking."

Just because they name it after students, doesn't make it the best option for students.

### There is a better, local option.

Even without "Student" in the name, NB Checking is ideal for those going off to school. It's free, pays interest and automatically reimburses every fee at every ATM in the world; essentially making every ATM your ATM. And no need to visit a branch with NB Mobile; easily deposit checks, transfer money, earn cash back rewards and pay bills with your smartphone or tablet.

### No 1-800 Numbers.

NB Checking comes with something their "Student Checking" can't: Needham Bank. With us, you receive concierge levels of service, regardless of your account balance. If NB Checking is the right choice for you, it's easier than you think to open an account.
